

## **CHERRYBROOK UNITED NETBALL CLUB**

### **GRADING POLICY**

Cherrybrook United Netball Club follows all the rules and guidelines provided by Netball NSW and works closely in conjunction with Hills District Netball Association to ensure the approach to our community sport is conducive to creating a positive and fair environment for our netballers to flourish in.

Our grading policy and team selection process is reviewed annually for continuous improvement but is very much tried and tested, to ensure that the grading of players and teams is conducted objectively, based on a player's holistic ability, skill level, commitment and attitude.

We aim to get the players in the right teams.

It is important to note that this is done with independent grading volunteers who are experienced members of the netball community and who have all have had personal experience in the process.
